Website Building: Weekend Assignment

HTML/CSS - Tesla

The following exercise contains the following subjects:

● HTML/CSS

Instructions

1. you need to create a 1 to 1 replica of exciting website. Use all the css and html knowledge that you have.

2. The website is: https://www.tesla.com/models

3. Don't copy existing html and css unless you have to (like colors). We will check this!

4. Use semantic html.

5. Use css positioning and styling.

6. Don't implement animations. Implement them as they are in the final frame.

7. If you need images, look for them in the dev tools.

8. Some assets links:

    1. videos:

        1. https://digitalassets.tesla.com/tesla-contents/video/upload/f_auto,q_auto:best/Model-S-Interior-Carousel-1-Cinematic-Display-Desktop-Global.mp4

        2. https://digitalassets.tesla.com/tesla-contents/video/upload/f_auto,q_auto:best/MS-Interior-Carousel-2-Yoke-Desktop.mp4

3. https://digitalassets.tesla.com/tesla-contents/video/upload/f_auto,q_auto/Model-S-Main-Hero-Desktop-LHD-Animation.webm

9. videos in general: right click on the page → page source → look for .mp4 or .webm or data-src-desktop

10. most images can be found in devtools → sources → digital assets.tesla.com
